Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the COUNTY OF LAWRENCE, PENNSYLVANIA ("the County") as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the COUNTY OF LAWRENCE, PENNSYLVANIA's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the COUNTY OF LAWRENCE, PENNSYLVANIA, as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The County's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in the Net Pension Liability and Related Ratios, Schedule of County Contributions - Last 10 Years, Schedule of Investment Returns - Last 10 Years, and Budgetary Comparison Schedules as listed as required supplementary information in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The Combining Balance Sheet – Nonmajor Governmental Funds, Combining Statement of Revenues, Expenditures, and Changes in Fund Balance – Nonmajor Governmental Funds, Combining Balance Sheet – Nonmajor Special Revenue Funds, Combining Statement of Revenues, Expenditures and Changes in Fund Balances - Nonmajor Special Revenue Funds, Combining Statement of Fiduciary Net Position – Custodial Funds, and Combining Statement of Revenues, Expenditures, and Changes in Fiduciary Net Position – Custodial Funds, as listed as other supplementary information in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The identified accompanying other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the identified accompanying other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 25, 2025 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

**COUNTY OF LAWRENCE, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2024**

The COUNTY OF LAWRENCE, hereafter referred to as the "COUNTY", is pleased to present its financial statements developed in compliance with Statement of Governmental Accounting Standard No. 34, entitled "Basic Financial Statements – Management's Discussion and Analysis – For State and Local Governments (hereafter "GASB 34"), and related standards. GASB 34 enhances information provided to the users of its financial statements. This section of the financial reporting package presents our discussion and analysis of the COUNTY's financial performance during the year that ended on December 31, 2024. Please read this Management Discussion and Analysis in conjunction with the COUNTY's financial statements that follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of the following four parts:

- Management's discussion and analysis (this section)
- Basic financial statements (including notes)
- Required supplementary information
- Other supplementary information

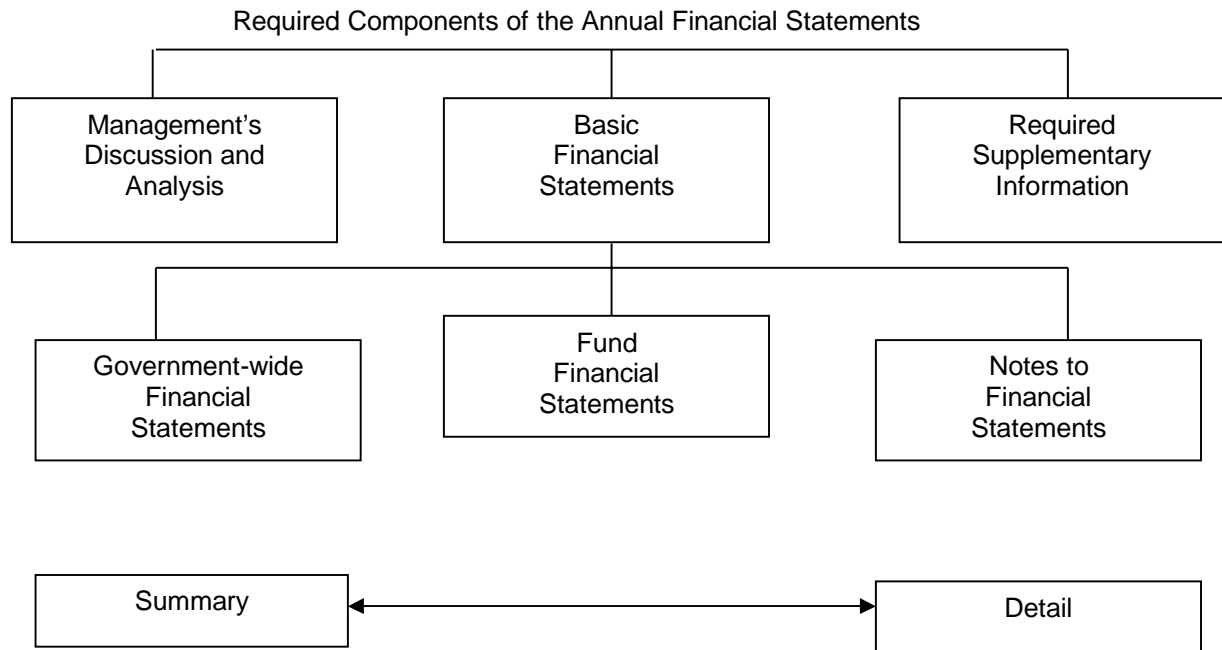

Management's discussion and analysis is a guide to reading the financial statements and provides related information to help the reader to better understand the COUNTY's government. The basic financial statements include notes that provide additional information essential to a full understanding of the financial data provided in the government-wide and fund financial statements. Required supplementary information is provided on the COUNTY's budget to actual figures for the general fund, mental health/developmental services fund and the children and youth services fund.

The basic financial statements present two different views of the COUNTY.

- *Government-wide financial statements*, the first two statements, provide information about the COUNTY's overall financial status.
- *Fund financial statements*, the remaining statements, focus on individual parts of the COUNTY's government. They provide more detail on operations than the government-wide statements. There are two types of fund financial statements:
 - *Governmental funds statements* show how general government services such as public safety, human services, public works, culture and recreation, and conservation and development are financed in the short term, as well as what remains for future spending.
 - *Fiduciary funds statements* reflect activities involving resources that are held by the COUNTY as a trustee or agent for the benefit of others. Fiduciary funds are not reflected in the government-wide statements because the resources cannot be used to support the COUNTY's programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
DECEMBER 31, 2024**

The remainder of the overview explains the structure and contents of the government-wide and fund financial statements.

Government-wide financial statements

Government-wide financial statements report information about the COUNTY as a whole using accounting methods similar to those used by private-sector companies.

- The statement of net position includes all the COUNTY's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, except fiduciary funds, with the difference reported as net position. This statement serves a purpose similar to that of the balance sheet of a private-sector business.
- The statement of activities focuses on how the COUNTY's net position changed during the year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on local taxes for funding.

All changes to net position are reported using the economic resources measurement focus and the accrual basis of accounting, which requires that revenues be reported when they are earned and expenses recorded when a liability is incurred, regardless of the timing of the related cash flow.

Net position is one way to measure the COUNTY's financial position. Over time, increases or decreases in the COUNTY's net position is one indicator of whether the COUNTY's financial position is improving or deteriorating. However, other non-financial factors such as changes in the COUNTY's property tax base and general economic conditions must be considered to assess the overall position of the COUNTY.

The Statement of Net Position and the Statement of Activities include the following:

- *Governmental activities* include the COUNTY's basic services such as general government, judicial, public safety, public works, human services, culture and recreation, and conservation and development.

Net position of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets in the fund level statements are reported as expenditures when financial resources (money) are expended to purchase or build assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated as it does not provide or reduce current financial resources. Finally, capital assets and long-term debt do not affect fund balances.

**COUNTY OF LAWRENCE, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
DECEMBER 31, 2024**

Government-wide statements are reported on the accrual basis of accounting that involves the following steps to format the statement of net position:

- Capitalize current outlays for capital assets
- Report long-term debt as a liability
- Depreciate capital assets and allocate the depreciation to the proper program/activities
- Allocate net position balances as follows:
 - Net investment in capital assets
 - Restricted net position is the net position with constraints placed on the use by external sources (creditors, grantors, contributors, or laws or regulations of governments) or imposed by law through constitutional provisions or enabling legislation
 - Unrestricted net position is net position that does not meet any of the above restrictions

Fund Financial Statements

Fund financial statements provide more detailed information on the COUNTY's most significant funds, not the COUNTY as a whole. Funds are accounting devices, i.e., a group of related accounts, the COUNTY uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by state law. Other funds are established to control and manage resources designated for specific purposes. Fund financial statements are reported using the modified accrual basis of accounting.

The COUNTY has two kinds of funds:

- *Governmental funds* include most of the COUNTY's basic services and focus on: (1) the flow in and out of cash and other financial assets that can readily be converted into cash, and: (2) the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting.

The relationship between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation that follows the governmental fund financial statements.

The COUNTY adopts an annual budget for the General Fund, as required by state law. The County also adopts a budget for other funds. A budgetary comparison of the COUNTY's General Fund, Liquid Fuels Fund, Mental Health/Developmental Services Fund, Children and Youth Services Fund, American Rescue Plan Act Fund, and Opioid Settlement Fund are presented as required supplementary information.

- *Fiduciary Funds* are funds for which the COUNTY is the trustee or fiduciary. These include certain custodial funds, or clearing accounts for assets held by the COUNTY in its role as custodian until the funds are allocated to the private parties, organizations or government agencies to which they belong. The COUNTY is responsible to ensure the assets reported in these funds are used for their intended purposes. This fiduciary activity is reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These funds are excluded from the COUNTY's government-wide financial statements because the COUNTY cannot use these assets to finance its operations. The fiduciary funds are reported using the accrual basis of accounting.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

Net Position

The COUNTY's total assets were \$96,295,235 at December 31, 2024. Of this amount, \$39,093,580 was capital assets.

GASB No. 34 required that all capital assets, including infrastructure, be valued and reported within the governmental activities column of the government-wide financial statements, but allowed infrastructure to be added over several years. The COUNTY adopted the provisions of GASB 34 related to infrastructure on the retroactive basis.

GOVERNMENTAL FUNDS

The COUNTY uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of governmental funds is to provide information on inflows, outflows, and balances of spendable resources. Such information is useful in assessing the COUNTY's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the COUNTY's net resources available for spending at the end of the year.

The COUNTY's governmental funds include the general fund and various special revenue funds. The general fund is the chief operating fund for the COUNTY. Special revenue funds are restricted to specific legislated use. The major funds are shown on the statement of revenues, expenditures and changes in fund balances in the financial statements.

DECEMBER 31, 2024**

GOVERNMENTAL FUND REVENUES

Governmental fund revenues by source at December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Revenues:		
Taxes	\$31,176,586	\$ 31,354,529
Intergovernmental Revenues	34,872,486	37,960,155
Charges for Services	8,010,845	5,016,993
Interest	1,279,096	1,104,609
Other	1,494,177	983,267
Transfers In	<u>6,443,605</u>	<u>4,596,017</u>
Total Revenue	<u><u>\$83,276,795</u></u>	<u><u>\$ 81,015,570</u></u>

Intergovernmental revenue for the year ended 2024 decreased due to more new grants in 2023 than in 2024. Charges for services increased in 2024 due to the Opioid Settlement fund revenue increasing.

GOVERNMENTAL FUND EXPENDITURES

Governmental fund expenditures by function at December 31, 2024 and 2023 were as follows:

	<u>2024</u>	<u>2023</u>
Expenditures:		
General Government - Administrative	\$10,353,600	\$13,512,747
General Government - Judicial	12,923,600	12,764,947
Public Safety	13,008,881	11,680,949
Public Works	999,821	1,166,509
Human Services	29,771,200	28,594,186
Culture and Recreation	770,634	734,475
Conservation and Development	2,990,015	3,330,771
Debt Service	2,642,739	2,647,046
Transfers Out	6,443,605	4,596,017
Miscellaneous	<u>49,536</u>	<u>30,784</u>
Total Expenditures	<u><u>\$79,953,631</u></u>	<u><u>\$79,058,431</u></u>

General Administrative expenditures decreased due to decreased spending in 2024 related to grants received. Judicial expenditures increased as a result of increased salary costs, vehicle purchases, and equipment upgrades. Public Safety expenditures increased due to increased jail personnel and Train Derailment Allocation. Human Services increased due to personnel salary increases. Conservation and Development decreased due to prior year increase in community allocations. Transfers Out increased due to transfer to the capital projects fund. Public Works and Culture and Recreation expenditures remained relatively level from 2023 to 2024.

The reasons for the changes in governmental fund balances are explained above in the governmental funds revenues and expenditures sections.

BUDGETARY HIGHLIGHTS

The COUNTY adopts an annual appropriated budget for all of its major funds. In 2024, General Fund expenditures were under budget by \$721,839 or 2.26% and revenues were under budget by \$505,003 or 1.36%. Liquid Fuels Fund expenditures were under budget by \$81,882 or 15.82% and revenues over budget by \$103,719 or 20.04%. Mental Health/Developmental Services Fund expenditures were under budget by \$1,449,332 or 12.70% and revenues were under budget by \$1,450,966 or 13.11%. Children and Youth Services Fund expenditures were under budget by \$3,257,019 or 18.61% and revenues were under budget by \$2,051,594 or 14.58%. American Rescue Plan Act Fund expenditures were under budget by \$299,931 or 13.68% and revenues were under budget by \$299,931 or 13.68%. Opioid Settlement Fund expenditures were under budget by \$137,807 or 25.33% and revenues were over budget by \$1,656,380 or 304.48%. Detailed information about the COUNTY's 2024 budgets for these funds can be found in Required Supplemental Information.

ECONOMIC CONDITIONS AND NEXT YEAR'S BUDGET

The county has stagnant property values which limit revenues and places constraints of expenditures and the delivery of services. The millage rate for 2024 remained at 8.309 mills.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2024

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances of governmental funds		\$ 32,125,726
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$91,119,668 and the accumulated depreciation is \$52,026,088.		39,093,580
Revenues not available to pay for current period expenditures and therefore reported as deferred inflows of resources in the funds:		
Real estate taxes		1,551,410
Opioid Settlement		8,363,969
Long-term liabilities are not due and payable in the current period and accordingly are not reported as fund liabilities. Both current and long-term liabilities are reported in the Statement of Net Position. Long-term liabilities at year-end consist of:		
Long-term debt	(24,415,000)

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
GOVERNMENTAL FUNDS
FOR THE YEAR ENDED DECEMBER 31, 2024**

Amounts reported for governmental activities in the Statement of Activities are different because:

Net Change in fund balances - total governmental funds \$ 3,323,164

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense is exceeded by capital outlay in the current period.

Capital outlays	959,938	
Depreciation expense	<u>(3,255,963)</u>	(2,296,025)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt.

Amortization of bond premium	15,661	
Change in interest payable on long-term debt	8,327	
Additions to lease payable	(46,868)	
Payments of lease payable	82,604	
Principal repayments	<u>1,720,000</u>	1,779,724

Governmental funds do not report the changes in compensated absences (434,833)

Governmental funds do not report the changes in the net pension liability and other related items. (560,399)

Real estate taxes reported in the funds include receipt of prior year delinquent taxes and do not include revenue attributable to the current year's delinquent tax receivable. This amount is the net effect of these differences.

Current year	1,551,410	
Prior year	<u>(1,264,680)</u>	286,730

Certain Revenues are not available for use in the governmental funds

Opioid Settlement Receipts	(2,186,772)	
Opioid Settlement Wave 2	<u>4,236,276</u>	2,049,504

COUNTY OF LAWRENCE, PENNSYLVANIA
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1: NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the County's significant accounting policies consistently applied in the preparation of the accompanying financial statements is as follows:

The County of Lawrence (the "County") was formed in 1849. The County operates under the direction of an elected three-member Board of Commissioners and provides the following services: general administrative services, tax assessment and collections, judicial, public improvements, public safety, public works, human services, culture and recreation, and conservation and development. The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units, as prescribed by the Governmental Accounting Standards Board ("GASB").

A) Reporting Entity

The County follows the criteria promulgated by the Governmental Auditing Standards Board ("GASB") Statement No. 61, *"The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34"*, for purposes of determining the scope of its reporting entity. As required by accounting principles generally accepted in the United States of America, the financial statements include those of the County of Lawrence (the "Primary Government") and its Component Units.

Fiduciary Component Unit

The Lawrence County Employees' Pension Plan ("Plan") was established to provide retirement, disability, and death benefits to eligible retirees of the County. The Plan is included in the financial reporting entity as a fiduciary fund because the Plan is (1) considered to be a separate legal entity, (2) the County appoints a voting majority of the governing board, and (3) the plan imposes a financial burden on the County as it is legally obligated or has assumed an obligation to make contributions to the Plan.

Related Organizations

The Board of County Commissioners is also responsible for appointing the members of the governing boards of other organizations, but the County's accountability for the organization does not extend beyond making the appointments. These organizations include:

- Lawrence County Planning Commission
- Lawrence County Airport Authority
- Lawrence County Conservation District
- Lawrence County Drug and Alcohol Commission Advisory Board
- Lawrence County Housing Authority
- Agricultural Land Preservation Board
- Federated Library Board
- Lawrence County Industrial Development Authority

B) Government-Wide and Fund Financial Statements

The Government-wide financial statements (i.e., statement of net position, and the statement of activities) report information on all the non-fiduciary activities of

the primary government. The effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which direct expenses of a given function, or segment, are affected by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include 1.) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2.) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the reporting government are reported as reductions of the related liability, rather than as expenditures.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available.

Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 365 days of the end of the current fiscal period with the exception of property taxes which must be received within 60 days of the year end to be deemed available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Licenses, operating and capital grants, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when the cash is received by the County.

C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during the period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as other financing sources rather than as a fund liability. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County reports the following major governmental funds:

- The General Fund is the primary government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues of this fund are primarily derived from real estate taxes, state and federal grants, and fees for services. Many of the basic activities of the County are accounted for in this fund including operation of general County government, boards, commissions, the court system, and health and welfare services.
- The Liquid Fuels Fund accounts for tax and grant funds received from the Commonwealth passed through to local municipalities for road and bridge maintenance.
- The Mental Health/Developmental Services Fund is used to account for proceeds of revenue received from various federal, state, and local sources. This fund is restricted for the provisions of the specified social services to eligible recipients.
- The Children and Youth Services Fund is used to account for proceeds of revenue received from various federal, state, and local sources. This fund is restricted for the provisions of the specified social services to eligible recipients.
- The Pass Through Grants Fund is used to account for revenues from federal and state grants that are given to various organizations throughout the county who administer the grants in accordance with the specified purpose of each grant.

C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

- The American Rescue Plan Act Fund is used to account for the Coronavirus Relief Fund federal grants awarded to the County.
- The Opioid Settlement Fund is used to account for the settlement payments received from the drug manufacturers and distributors as part of the lawsuit stemming from the opioid epidemic. The funds are to be used to help the County respond to the effects of the epidemic.
- The Capital Projects Fund is used to account for revenues relating to the various capital projects throughout the County.

Additionally, the County reports the following fiduciary fund types:

- The Lawrence County Employee Retirement Fund is a Pension Trust Fund used to account for the pension plan contributions of the County and its employees and the related benefit payments and other plan costs.
- The Custodial Funds are used to account for assets held by certain County offices that are subsequently disbursed to the County, other governments, and other activities for which it was collected.

D) Assets, Liabilities, Deferred Inflows of Resources, Deferred Outflows of Resources, and Net Position or Fund Balance

1. Cash and Cash Equivalents

The County considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. The County had cash overdrafts of \$3,427,104 due to timing issues with revenues.

2. Investments

Investments of the County are reported at fair value. Investments that do not have an established market value are reported at estimated values.

3. Interfund Transactions

The County affects a variety of transactions between funds to finance operations. Certain interfund transactions have not been paid or received as of December 31, 2024, and appropriate interfund receivables or payables have been established accordingly.

4. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the governmental activity column in the government-wide financial statements. Property, plant and equipment with initial, individual costs that equal or exceed \$5,000 and estimated useful lives of over one year are recorded as capital assets. The County adopted the provisions of GASB 34 related to infrastructure on the retroactive basis. Capital assets are recorded at historical costs or estimated historical costs if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are completed.

Capital assets of the County are depreciated using the straight-line method over the following intended useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and Improvements	20-40
Equipment and Vehicles	5-15
Infrastructure	50

5. Leases

The County has a noncancellable lease for equipment. The County recognizes a lease liability and an intangible right-to-use lease asset in the government-wide financial statements.

6. Allowance for Doubtful Accounts

Taxes receivable have been reported net of allowance for doubtful accounts of \$467,815.

7. Inventories

The County's Inventories consist entirely of central supplies and are therefore valued at historical cost.

8. Long-Term Obligations

In the government-wide financial statements, long-term debts are reported as liabilities in the Statement of Net Position and bond discounts and premiums are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are expensed as incurred.

In the fund financial statements, the face amount of debt issued is reported as other financing sources.

NOTE 1: NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D) Assets, Liabilities, Deferred Inflows of Resources, Deferred Outflows of Resources, and Net Position or Fund Balance (Continued)

9. Compensated Absences

County policy permits employees to accumulate a limited amount of earned but unused vacation and sick leave time. These benefits are payable to employees upon separation of services. All leave pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is recorded. The computed liability is in compliance with GASB 16, *Accounting for Compensated Absences* and GASB issued Statement No. 101 "Compensated Absences".

10. Unearned Revenues

Unearned revenues are reported in the government-wide and governmental fund financial statements. Unearned revenues represent unearned revenues or revenues which are measurable but not available and, in accordance with the modified accrual basis of accounting, are reported as unearned revenues. The County deems revenues received within 365 days of year end to be available with the exception of property taxes which must be received within 60 days of year end to be deemed available.

11. Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has two types of items, which arise under a modified accrual basis of accounting, that qualify for reporting in this category, unavailable revenues and deferred inflows of resources related to pensions. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes and opioid settlement. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. Deferred inflows of resources related to pensions are described further in Note 6. The annual difference between expected and actual experience is amortized over a 4.6 year period.

Lease-related amounts are recognized at the inception of the lease. The deferred inflow of resources is recorded in amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before commencement of the lease term that relate to future periods, less any incentives paid to, or on behalf of the lessee at or before commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease.

12. Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government only has one type of item, which arises under a modified accrual basis of accounting, that qualifies for reporting in this category. Deferred outflows of resources related to pensions are described further in Note 6. The annual difference between the projected and actual earnings on plan investments is amortized over a five-year closed period beginning the year in which the difference occurs (current year).

13. Net Position/Fund Balances

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- *Net Investment in Capital Assets* – This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- *Restricted Net Position* – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – This category represents net position of the County, not restricted for any project or other purpose.

GASB Statement No. 54 establishes accounting and financial standards for all governments that report governmental funds. It establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions as follows:

- *Non-spendable* – This classification consists of accounts that cannot be spent because they are not in spendable form or are legally required to be maintained intact.
- *Restricted* – This classification consists of amounts that are restricted to specific purposes. The County's restricted fund balances consist of external enabling legislation for the state, federal, or local government.
- *Committed* – This classification consists of amounts used for specific purposes imposed by formal action of the County's Board of Commissioners. The removal or modification of the use of committed

funds can only be accomplished by a formal action of the Commissioners prior to fiscal year end.

- Assigned – This classification consists of amounts constrained by the County's intent to be used for specific purposes that are neither restricted nor committed. The County Commissioners have delegated the authority to assign fund balance for specific purposes to the Chief Clerk and the County Controller.
- Unassigned – This classification consists of amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund permitted to report a positive unassigned fund balance.

The County's GASB 54 policy is to first apply expenditures against any restricted fund balances, committed fund balances, assigned fund balances, and then unassigned fund balances, in that order.

14. Accounting Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual amounts may differ from those estimates.

15. Adoption of Governmental Accounting Standards Board Statements

The county adopted the provisions of GASB issued statement No. 100, Accounting Changes and Error Corrections – An amendment of GASB Statement No. 62". The adoption of this standard had no effect on the County's financial statements.

The county adopted the provisions of GASB issued Statement No. 101, "Compensated Absences". The adoption of this standard required the County to re-evaluate their compensated absences calculation. The resulting change was not material to the financial statements.

16. Pending Changes in Accounting Principles

In December 2023, the GASB issued Statement No. 102 "Certain Risk Disclosures". The County is required to adopt Statement No. 102 for its fiscal year 2025 financial statements.

16. Pending Changes in Accounting Principles

In April 2024, the GASB issued Statement No. 103, "Financial Reporting Model Improvements". The County is required to adopt Statement No. 103 for its fiscal year 2026 statements.

In September 2025, the GASB issued Statement No. 104, "Disclosure of Certain Capital Assets". The County is required to adopt Statement No. 104 for its fiscal year 2026 statement.

The County has not yet completed the various analysis required to estimate the financial statement impact of these new pronouncements.

NOTE 2: BUDGETARY DATA

Commonwealth of Pennsylvania statutes require that all County Governments establish budgetary systems and approve annual operating budgets. The County's annual budget includes the General Fund and certain Special Revenue Funds and is based on estimates of revenues and expenditures approved by the Board of County Commissioners. The County of Lawrence adopted the 2024 budget on the same basis of accounting as reported in the fund financial statements. The County of Lawrence follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Commissioners' office then interviews each department head to discuss their budgets, as submitted, and allows them to substantiate projected expenditures.
2. Upon consolidation of department and custodial expenditure projections, the Commissioners' office ascertains the most viable method of financing them.
3. Subsequently, the Budget Director assembles the preliminary projections of revenues and expenditures into a final budget incorporating any revisions or adjustments resulting from the aforementioned Commissioners' review.
4. By early December, the final budget is presented to the Commissioners. Pursuant to budgetary requirements as set forth in the County Code, public notice is given that the final budget is available for inspection for a period of 20 days.
5. After a 20-day inspection period, but no later than December 31, the Commissioners adopt the final budget by enacting the appropriate resolution.

During the course of the year, departmental needs may change, emergencies may occur, or additional revenue sources may arise. As a result, funds are often transferred between line items of the department's budget or additional revenue may need to be budgeted for a specific project or grant. Adjustments to the budget are made on a line-item basis during the year and are approved by the County Commissioners. Financial analysis is provided monthly to management showing spending levels in comparison to the current budget. The budget is also reviewed by management with other departments.

NOTE 3: DEPOSITS AND INVESTMENTS

As of December 31, 2024, the County had the following investments:

	Cost	Market
Fiduciary Funds		
Retirement Funds		
Equity Mutual Funds	\$ 43,888,279	\$ 57,381,393
Fixed Income Mutual Funds	29,510,350	28,890,938
Miscellaneous	13,759,798	16,713,357
Total Fiduciary Fund Investments	<u>\$ 87,158,427</u>	<u>\$102,985,688</u>

Interest Rate Risk – The County's Retirement Fund does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – The County has no formal investment policy for its operating funds that addresses credit risk.

Custodial Credit Risk – For deposits and investments, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will be able to recover the value of its investment or collateral securities that are in the possession of an outside party. As of December 31, 2024, the County's cash balances for its governmental and custodial fund were \$36,832,457 and its bank balances were \$31,831,257. Of these bank balances, \$31,238,168 was collateralized with securities held by the pledging financial institutions, or by their trust departments or agents, but not in the County's name. The entire cash and cash equivalent balance in the Retirement Fund was collateralized with securities held by the pledging financial institutions, or by their trust departments or agents, but not in the County's name. None of the County's retirement investments were exposed to custodial credit risk at December 31, 2024 because the custodians hold the securities in an account that designates the County as the owner of the securities.

Concentration of Credit Risk – The County has no formal investment policy for operating investments pertaining to the concentration of credit risk. The following investments represent 5 percent or more of the Retirement Fund's assets at December 31, 2024:

157,970 shares of Artisan (Mutual Fund-Equity) which represents 5.60 percent of the Retirement Fund's Assets.

368,309 shares of Dodge Cox (Mutual Funds- Equity) which represent 5.45 percent of the Retirement Fund's Assets.

148,113 shares of Fidelity 500 (Mutual Fund-Equity) which represents 32.63 percent of the Retirement Fund's Assets.

632,390 shares of Fidelity (Mutual Fund-Equity) which represents 9.16 percent of the Retirement Fund's Assets.

640,525 shares of Baird Core (Mutual Funds-Fixed Income) which represents 6.92 percent of the Retirement Fund's Assets.

342,594 shares of Parametric (Mutual Funds- Balanced) which represents 5.70 percent of the Retirement Fund's Assets.

5,205,417 shares of Iif Hedged LP (Partnerships/Joint Ventures) which represents 5.62 percent of the Retirement Fund's Assets.

237,941 shares of Mfs Low (Partnerships/Joint Ventures) which represents 5.76 percent of the Retirement Fund's Assets.

There were no other investments in any one organization that represents 5 percent or more of plan assets.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

At December 31, 2024, the County had the following recurring fair value measurements:

The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the investments.

NOTE 4: PROPERTY TAXES

Real Estate Property Taxes

Real estate property taxes for the calendar year are levied on March 1 of each year. Any unpaid real estate taxes attach as an enforceable lien on property as of January 1 of the following year. Taxes are levied on March 1 and payable with a 2% discount to April 30, with no discount or penalty to June 30 and with a 10% penalty thereafter. The County bills these taxes which are collected by the County Treasurer.

The County is permitted by the County Code of the Commonwealth of Pennsylvania to levy real estate taxes up to 25 mills on every dollar of adjusted valuation for general County purposes exclusive of the requirements for the payment of interest and principal on bonded or funded debt. In 2024, the County had total millage of 8.309 mills on 100% of the assessed valuation, of which .603 mills were reserved for principal and interest on debt, .135 mills were reserved for special purposes, and 7.571 mills were reserved for general County purposes.

The County's 2024 real estate taxes are based on assessed values established by the County's Bureau of Assessments. Assessed values of real property are generally 100% of the base year value (2001) as determined by the Lawrence County Tax Assessment Office. The total 2024 real estate taxes levied was \$31,187,675 based on a total County assessed valuation of \$3,753,481,196. Based on the 2024 levy of 8.309 mills, a property owner would pay \$8.31 per \$1,000 of assessed valuation.

NOTE 6: EMPLOYEE RETIREMENT TRUST FUND

The Lawrence County Employee Retirement Plan (the "Plan") is a single employer defined benefit pension plan that covers all full-time employees of the County. The plan

provides retirement, disability and death benefits to plan members and their beneficiaries. The Plan is part of the County's financial reporting entity and is included in the County's financial statements as a Pension Trust Fund

Summary of Significant Accounting Policies

Method used to value investments. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate assets are reported at fair value utilizing an income approach to valuation. An independent appraisal should be obtained once every year to determine the fair market value of the real estate assets.

Description of Plan

Plan Administration. The Retirement Board administers the Lawrence County Employees Pension Plan. The Plan is governed by the 1971 County Pension Law, Act 96, of the General Assembly of the Commonwealth of Pennsylvania, as amended (the "Act"). Benefit and contribution provisions of the Plan are established and can be amended as provided by the Act. Cost of living adjustments are provided at the discretion of the County Retirement Board.

Management of the Plan is vested in the Board, which consists of five members - three elected County Commissioners, the County Controller and the County Treasurer.

Plan membership. For the 2024 measurement period, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	331
Inactive plan member entitles to but not yet receiving benefits	60
Active plan members	383
	<u>774</u>

Benefits provided. Lawrence County Employees Pension Plan provides retirement, disability, and death benefits. Retirement benefits for plan members are calculated as a percent of the member's highest 3-year average salary times the member's years of service depending on class basis. Plan members with 20 years of service are eligible to retire at age 55. Plan members that have attained age 60 are eligible to retire. All plan members are eligible for disability benefits after 5 years of service if disabled while in service and unable to continue as a county employee. Disability retirement benefits are equal to 25% of highest average salary at time of retirement. Death benefits for a member who dies with 10 years of service prior to retirement is the total present value of member's retirement paid in a lump sum. A plan member who leaves County service with less than 5 years of service may withdraw his or her contributions, plus any accumulated interest.

Description of Plan (Continued)

Contributions. The Retirement Board establishes contribution rates based on an actuarially determined contribution recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended December 31, 2024, the minimum required active member contribution rate was 8 percent of annual pay and the County's average contribution rate was 3.49% of annual payroll. Employees may contribute up to an additional 10% of gross pay, at their option. Per Act 96 of 1971, as amended, the contribution requirements of the Plan members and the County may be amended by the General Assembly of the Commonwealth of Pennsylvania. Interest is credited each year in an amount allowed by the County Retirement Board to each member's account.

Administrative costs of the Plan may be financed through investment earnings. The Act makes no provision for termination of the Plan. The County does not issue a separate financial report for the Plan.

Legally Required Reserves

At December 31, 2024, the County has a balance of \$26,271,264 in the Members' Annuity Reserve Account. This account is the total of the contributions deducted from the salaries of the active and terminated vested members of the retirement system and the IRC 414(h)(2) pickup contributions together with the interest additions as of December 31, 2024. Since these accumulations represent the present value as of December 31, 2024 of future benefits, the reserve balance and liability are identical.

The County has a balance of \$10,718,720 in the County Annuity Reserve Account as of December 31, 2024. This balance and the amounts expected to be credited in the future, plus investment earnings, represent the reserves set aside for the payment of the County's share of the retirement allowances and this reserve is fully funded.

This is the account out of which regular interest is credited to the member's annuity and retired members' reserve account, administrative expenses may be paid, and the pension obligations of the county are funded.

When a county annuity is scheduled to commence for a particular member, sufficient monies are transferred from the County annuity reserve account to the retired members' reserve account to provide for such County annuities actually entered into.

The Retired Members' Reserve Account is the account out of which monthly retirement allowances, including cost-of-living adjustments and death benefits are paid. The balance in this account was \$50,720,735 as of December 31, 2024. The corresponding liability for those annuitants on the roll is identical.

Plan Actuarial Methods and Assumptions

Actuarial assumptions. The total pension liability was determined by an actuarial valuation for the 2024 measurement period, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.5 percent, average, including inflation
Investment rate of return	6.75 percent, net of pension plan investment expense, including inflation

COUNTY OF LAWRENCE, PENNSYLVANIA
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2024

NOTE 6: EMPLOYEE RETIREMENT TRUST FUND (CONTINUED)

Plan Actuarial Methods and Assumptions (Continued)

Mortality rates were based on the PubG-2010 Mortality Table for males and females with generational mortality improvement using MP19.

The actuarial assumptions used in the valuation for the 2024 measurement period were based on past experience under the plan and reasonable future expectations which represent our best estimate of anticipated experience under the plan. An actuarial experience study was performed during 2016; however, no modifications to assumptions were made as a result.

Under the Act, cost-of-living adjustments to each member's retirement allowance shall be reviewed at least once every three years subsequent to the member's retirement date. The adjustment, should the Plan elect to give one, is a percentage of the change in the Consumer Price Index. The Plan did not include an assumption for projected ad hoc postemployment benefit changes as they are not considered to be substantively automatic.

Investment policy. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the Board by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

The following was the Board's asset allocation policy for the 2024 measurement period:

Asset Class	Target Allocation
Domestic Equity	42.0%
International Equity	17.0%
Fixed Income	23.5%
Real Estate/Alternative	17.5%
Cash	0.0%
	<hr/>
Total	100%

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation for the 2024 measurement period (see the discussion of the pension plan's investment policy) are summarized in the following table:

COUNTY OF LAWRENCE, PENNSYLVANIA

NOTE 6: EMPLOYEE RETIREMENT TRUST FUND (CONTINUED)

Plan Actuarial Methods and Assumptions (Continued)

<u>Asset Class</u>	<u>Long Term Expected Real Rate of Return</u>
Domestic Equity	5.4-6.4%
International Equity	5.5-6.5%
Fixed Income	1.3-3.3%
Real Estate/Alternative	4.5-5.5%
Cash	0.0-1.0%

Discount rate. The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the actuarially determined contribution rates in accordance with the County's recently adopted funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the County, calculated using the discount rate of 6.75 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease (5.75%)</u>	<u>Current Discount Rate (6.75%)</u>	<u>1% Increase (7.75%)</u>
County's Net Pension Liability (Asset)	\$ 6,494,745	\$ (4,041,908)	\$(12,923,346)

Rate of return. For the 2024 measurement period, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 11.40 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 12: TAX ABATEMENTS

Tax Abatements are the result of agreements that are entered into by the County to forgo real estate tax revenues for the promise by an individual or entity to take specific action that contributes to economic development in the County. Currently, there are no tax abatements entered into by other governments that reduce the County's tax revenues. The County has one real estate tax abatement program: Local Economic Revitalization Tax Assistance (LERTA).

Local Economic Revitalization Tax Assistance (LERTA)

The LERTA program is a tool to encourage private investment and rehabilitation of deteriorated properties within Lawrence County. The LERTA program exists pursuant to the Commonwealth of Pennsylvania Local Economic Revitalization Tax Assistance Act 76 of 1977 (72 P.S. §4722, et seq.). Authorization of a LERTA can be driven by either a developer for a specific project or a municipality seeking to redevelop a deteriorated area or facilitate a new economic development project. The Lawrence County LERTA Program Guidelines created by Lawrence County Commissioners (LCC) provide an understanding of the County's policy and requirements for using LERTA. Evaluation requirements considered for a LERTA include economic and fiscal impact of the new development, demonstration of the need for LERTA, value added to local economy, private investment leverage, type and location of development. The LERTA Project Review Form is evaluated by LCC to determine eligibility under requirements set forth by the Commonwealth and County. LCC facilitates a meeting for community engagement in the Project. Prior to the County ordinance authorizing the LERTA exemption, the local municipal government must affix the boundaries of the deteriorated area during a public hearing. The determination of deteriorated areas takes into account criteria set forth in the Urban Redevelopment Law of Pennsylvania of May 24, 1945 (35 P.S. 1701, et seq.). LERTA allows for an exemption of real estate property tax for the assessed valuation of new construction or improvements to certain industrial, commercial or other business property in deteriorated areas. An exemption is provided on the assessment attributable to a portion of the actual cost of new construction or improvements. Each agreement has a proposed development, termination date and maximum tax exemption and/or yearly maximum tax exemptions. The LERTA exemption schedule is 5 years at 100% declining each year by 20%. The Lawrence County Office of Property Assessment (OPA) assesses the property to determine the valuation attributable to the actual costs of the improvements to the deteriorated property in conjunction with the project. The exemption is based off of the increase in assessment after the property has been completed and reassessed by the OPA. If the assessment of the improvement has not increased by more than \$100,000 the application for abatement will be null and void. There is no provision or conditions for recapturing. During 2024, eleven (11) properties received an exemption from County's real estate property tax. The total County tax abated during 2024 was \$59,381 related to various projects throughout the County.

NOTE 13: LEASES

Lease Obligations

In 2022 the County adopted the provisions of Governmental Accounting Standards Board Statement No. 87, "Leases". In conjunction with the adoption of this standard, the County recognized a lease obligation in the amount listed below, and a corresponding right of use asset in the amount of \$835,028.

	Beginning Balance	Lease Additions	Lease Payments	Ending Balance	Due within 1 year
Governmental Activities	\$ 891,627	\$ 46,868	\$(82,604)	\$ 855,891	\$58,704

Pertinent information regarding the leases is as follows:

The County leases postage machines from external parties. The leases mature in 2025 and have an imputed interest rate of 4.3%. The initial value of the lease liability for the copiers as of January 1, 2023, was \$37,211, of which \$15,420 was outstanding as of December 31, 2024. A corresponding right of use asset was initially recorded in the amount of \$47,012, and there was \$17,006 of accumulated amortization as of December 31, 2024.

The County leases towers for public safety from an external party. The leases mature in 2040, and have an imputed interest rate of 4.31%. The initial value of the lease liability for the vehicles as of January 1, 2023, was \$920,038, of which \$800,063 was outstanding as of December 31, 2024.
